

# Torture, Storm Alert

Dungeon of silence  
Abortion of the mind  
Demented, twisted  
Frenetic destroying all mankind  
Commander of the legion  
Your night shall now descend  
To the darkest hell you'll follow me  
Beyond the heaven's end  
Crucify the devil's reign  
Decease the black decay  
Molesting only innocent  
There is no other way  
Lethal infection  
Forbidden zone of hell  
Fallen angels soar the sky  
As Satan tolls the bell  
I will take you down  
To the terror kingdom  
Devastation, pentagram  
Warriors of steel  
Penetrate the bolted gate  
Bestial appeal  
Guardian of the fallen souls  
Conquering the weak  
Clottage of the insecure  
Religion that you seek  
Execute the piercing wound  
Infect the bloody cross  
Black masses haunting sacred hymns  
In memory of their loss  
Worship on the oratory  
Satiated plague  
Existence of the nescient race  
Adore the burning flag  
I will take you down  
To the terror kingdom  
Evil spirits rise, obituary  
The vault of pressure  
Funeral of death, eternal purgatory  
Pulsating veins, the terror reigns  
I will take you down  
I can see you now  
I will watch you die  
You will feel my wrath  
Take your soul away  
As the darkness falls  
I desecrate your dreams  
I will not respond  
As I hear your screams  
Your pitiful screams  
Past the horizon  
We'll watch the sea of flames  
We'll soar the winds of Salem  
And end your foolish games  
Observe the necromancer  
Conjure up the gods  
Poised are the insipid ones  
The fallen one marauds  
666 upon the rood  
Behold the demon's flight  
And join the mass of Satan's hordes  
That mutilate the light  
Overtake the living  
It's all inside your mind

The tearing flesh and rotting limbs  
Of bodes that you find  
Trapped within the bleeding walls  
Severed from your head  
Unholy fuckin' rituals  
That summon up the dead  
Clawing, grinding to escape  
You never can retaliate  
You're here for good in solitude  
To stare amongst the wretched gate  
No one will remember you  
Distorted memory  
The pit of doom shall be your tomb  
This world of blasphemy  
I will take you down  
To the terror kingdom  
And I will watch you burn
