Tory Lanez, I LIKE

She likes the way I am, yeah, oh my She likes the way I am, yeah, yeah

Yeah (She likes the way)

Uh, tirèd for the bad lil' bitches in the city and it's all on me Time, low time when the love so blind that you're all I can see Know the night won't be the same if you don't leave with me Ass up, head down, then turn your dress down

Know I like

I like, I like, I like it

I like, I like, I like it

I like, I like, I like it

I like, I like, I like it (She likes the way)

Good ass girl in the bad ass city

Got the itty bitty titty but the ass come with it

Got your own bone, the flesh come with it

Lookin' single in the club but you hopin' that a man don't get it

And she pullin' up, late night, no tees, play fight

Big jaw, grey white, fuck 'til the daylight

Put it to sleep 'cause I don't need no Xan'

And she fuckin' with me then she gon' need both hands, yeah

Big penthouse, spend another ten thou'

Nothin' get rick'd out, money get sent out

Good brain, good head, get the sense out

Then I make it rain in the bed, pullin' ten thou'

She likes the way I put shit down

And I likes the way, I ain't gotta call her whenever I'm in town

And she know when to pull up

Pull up on the block, throw the hood up

The block, ten boy, woodgrain with the foot up

Call me when you need somebody to work on that body

The way that he should've, yeah

I pull up AM, scotch color grey bands, all whole darker than Ray-Bans

And I'm still on that ass like spray tan

I would get it poppin' with you or your eight friends but look

I like, I like, I like it

She likes the way I am, yeah, oh my

She likes the way I am, yeah, yeah

Yeah (She likes the way)
