

Toto, Can You Hear What I'm Saying

The world is precious, a gift to you and me
I suggest we treat her right, with love and dignity

Everybody's looking for some peace of mind
If you seek the truth then you will surely find
Everybody wants to have global peace
While the press of a button can shake the world to its knees

Chorus:

Can you hear what I'm saying, can you hear what I'm saying

There are those who say might is right, I beg to disagree
I say we all unite and redirect our destiny

Everybody's looking for a quick solution
Our lungs are choking from breathing air pollution
I say put down your guns and stop the revolution
I say it's time we make a restitution, yes

Chorus - can you hear me now

Chorus repeats 2x

Can you hear me now, I am calling out to you
(Can you hear me calling out to you, can you hear me calling out to you)

There's so much starvation, so much say untruth
So much prejudice, there's so much liquidation - oh how long, how long

Can you hear what I'm saying

Africa, America, Eurasia, Latin Africa
