

# Toto, Get My Way

I can't take no more  
I'm so tired of running in somebody else's shoes  
What's it all been for  
What's the use of paying for somebody else's dues

I've been on the road for someone else's dreams  
Now I'm trying to find my way back again  
It's time to break some rules  
And stop before the fire in me cools

Chorus:  
I got my way  
Of getting through to you  
And I'm going back where no one's been before  
Some day  
I'll show you something new  
I've got my way  
To try and wipe the tears from my eyes

I'm half scared to death  
Think I'm right but what if I'm wrong  
I've got one shot left  
The door is open now but not long  
The room's full of faces that I've never seen  
Like a million pair of eyes looking down  
The smoke is blinding me  
But I can still see my destiny

Chorus:  
I got my way  
Of getting through to you  
And I'm going back where no one's been before  
Some day  
I'll show you something new  
I've got my way  
Of trying to wipe the tears from my eyes

(repeat chorus and fade)
