

# Toto, Gift Of Faith

All this pain surrounding me  
Hopelessness is all that I see now  
Does it have to be this way  
Brought up on hypocrisy  
The seeds they sow don't last forever  
They just fade away

Don't be confused by the lies  
Of the fools and deceivers  
Hope and believe in the things  
That we need to survive

We can make it if we'd only take the gift of faith  
We can change it if we'd just accept the gift of faith

Take away my dignity  
Take away my hope and my freedom  
You got a world full of rage  
Don't cover me with apathy  
Don't buy and sell what I believe in  
Don't lock me in a cage

In a world where no one's alone  
Trust should come easily  
Just reach out your hand  
And I'll give you mine

We can make it if we'd only take the gift of faith  
We can change it if we'd just accept the gift of faith

Don't be confused by the lies  
Of the fools and deceivers  
Hope and believe in the things  
That we need to survive

We can make it if we'd only take the gift of faith  
We can change it if we'd just accept the gift of faith  
We can make it if we'd only take the gift of faith  
It's yours to choose but only fools refuse the gift of faith
