Toto, Lion

I got my feet back on the ground We were headed for disaster Woke up, I got ready for work You weren't around I was fast, but you were faster Such a night, feeling right Nothing I could say (Don't take it away) Have to know, why'd you go? Couldn't even beg you to stay

Lyin' in a sweat, tryin' to forget All of my lovin' for you girl Lyin' in a sweat, tryin' to forget All of my lovin' for you girl

Huntress you compell me with your eyes It's my heart that you're enslaving Serpent dance You really hypnotize To the lion's den is the road for me you're paving In a trance, saw you dance And you made romance to me (Don't take it away) Took a chance, circumstance And it wasn't hard to see

Lyin' in a sweat, tryin' to forget All of my lovin' for you girl Lyin' in a sweat, tryin' to forget All of my lovin' for you girl

You're the one that made me feel this way So alone without your smile You took my heart Left my soul to pay Just to watch me crawl on another smile

Lyin' in a sweat, tryin' to forget All of my lovin' for you girl Lyin' in a sweat, tryin' to forget All of my lovin' for you girl
