

# Toto, Make Believe

[Chorus:]

Why don't we make believe we're in love again  
Who says the crimson moon doesn't shine  
Where do people go when they're looking for that one of a kind

Why don't we make believe that we're sorry  
Why must we hold it all inside  
Where do lovers go when they're running and there's no place to hide

Always remember - the day we met in the pouring rain  
You were content and - we went our separate ways  
No matter which way the wind blows now, I'll hang on to it anyhow  
Don't ever say it could never be the same

[Repeat chorus]

Always with me - holding hands on a summer day  
You were content and - you took it all away  
I didn't come here to change your mind,  
Lead you on and waste your time  
All alone in the evening, getting day

Why don't we make believe

[Instrumental break]

[Repeat chorus]
