

Touche, This Goodbye Is Not Forever

This goodbye is not forever
I will love you forever and forever
This goodbye is just for love to me
Baby you can trust me
You're not a one-night-stand to me
And if you've got my message
You will be too blind to see
Baby I will never go
Baby I will never go
Oh I swear it's true
Baby I will never go
Baby I will never go
Never make you blue
This goodbye is not forever
I will love you forever and forever
This goodbye is just hello to me
This goodbye is not forever
I will love you forever and forever
This goodbye is just hello to me
Babe I'd die for you girl
It's not just too late to try
Oh the sectors that I keep girl
Won't see it in your eyes
Baby I will never go
I can't let you go no,no
Cause I need you so
And I can't stop loving you
Can't stop loving you girl, no no no
This goodbye is not forever
I will love you forever and forever
This goodbye is just hello to me
This goodbye is not forever
I will love you forever and forever
This goodbye is just hello to me
