

# Tove Lo, Call on Me (with SG Lewis)

(Call on me)  
Call on me  
Call on me

Lay under the stars  
All dusted in love  
I grab your chain dangling from above  
I always want it  
You're never boring  
Let's slip the magic into water cups

I got nothing to lose  
Take me home with you  
Let my body rule (Aha-ah), oh  
I got nothing to hide  
I'm putting my guard down  
Bring me back to life (Aha-ah), oh

Call on me, I'd die for you, baby  
Believe in love at night when you save me  
Call on me, you know that I want it  
I'll keep on coming back for your body

Call on me  
Call on me  
Feel your body call on me  
Call on me  
Feel your body call on me

We're watching 'em dance  
Don't look at your hands  
Just feel my sweat drip down your naked chest  
Hallucinating  
Infatuated  
I let them take me (Aha-ah)

Call on me, I'd die for you, baby  
Believe in love at night when you save me  
Call on me, you know that I want it  
I keep on coming back for your body

Call on me  
Call on me  
Feel your body call on me  
Call on me  
Feel your body call on me

I got nothing to lose  
Take me home with you  
Let my body rule (Aha-ah), oh  
I got nothing to hide  
I'm putting my guard down  
Bring me back to life (Aha-a), oh

Call on me, I'd die for you, baby  
Believe in love at night when you save me  
Call on me, you know that I want it  
I keep on coming back for your body

Call on me  
Call on me  
Feel your body call on me  
Call on me  
Feel your body call on me
