

# Tove Lo, Suburbia

Now here I am with you  
I never wanted babies  
I know they're kinda cute  
I never wanted marriage

But here I am with you  
We love to live in chaos  
There's nothing in our way  
Our love is deep but fragile

No fake grass  
No fake friends  
That's our plan  
Yeah, that's our future dance  
No pretend  
No safe end  
That's our plan  
No circumstance

I-I don't want suburbia  
I don't need routines and lies  
I hope you know that I know  
You are the love of my life  
But I-I-I can't be no Stepford wife

Just let me talk this through  
So, if we had a baby  
You'd love them more than me?  
What if I'm way too lazy  
For the mom olympic team?  
Will we still be romantic?  
Will I still get my sleep?  
Will you be less pedantic?

No fake grass  
No fake friends  
That's our plan  
Yeah, that's our future dance  
No pretend  
No safe end  
That's our plan  
No circumstance

I-I don't want suburbia  
I don't need routines and lies  
I hope you know that I know  
You are the love of my life  
But I-I-I can't be no Stepford wife (Ohh)

Mmm, mmm mmm mmm  
Mmm, mmm mmm mmm  
Mmm, mmm mmm mmm  
Mmm, mmm mmm mmm

What if I change my mind and want one  
But then I can't have none?  
Would you leave me then?  
What if I don't want the things I'm supposed to want?  
What then?  
But what if I do in the end?

I-I don't want suburbia (No-o)  
I don't need routines and lies (I don't need no lies)  
I hope you know that I know (I know)

You are the love of my life  
But I-I-I can't be no Stepford wife (Oh no)  
I hope you know that I know  
You are the love of my life  
But I-I-I can't be no Stepford wife
