

Tower, Shadows

Shadows

I never come, I'm not alone
My open eyes are cold
I never come, I'm not alone
I go on shadows road
Come with me, my devil
We broke the world
I'm going down, I feel the death
I'm the victim dreams...
I see the cross on the silent sky
I feel the pain
I kill your soul
You're Full
You don't know who I am
I never leave out the death
I stay in the shadows
I never come, I'm not alone
My open eyes are cold
Time is a thing we must accept
Destiny is what we all seek...
