## Trace Adkins, Ride

Alright

Take a trip from here Bogalusa, Baton Rouge,

New Orleans, Picayune,

Boloxi, Pascagoula,

Mobile Bay, Big full moon

Diesel up just north of Destin

Headed cross to Jacksonville

Love to see the world come at me

Through the bugs

On a big windshield

Yeah, that's right

Tear it down in Raleigh-Durham

Haven't got an hour to lose

Head up to the coast to Virginia

Read the newest Newport News

Back across the Appalachians

Blowin' into Louisville

Love to feel the big wheels turnin'

Always have and always will

Somewhere inside me

There's a new direction

Somewhere before me

There's an open road

Can't go to sleep

Without that diesel singin'

Somebody tellin' me

It's time to go

Let's ride

Come on boys, let's ride

Come on boys, let's ride

Little Rock, Texarkana,

Dallas, Fort-Worth and El Paso

110 in the desert

Pedal down

Go dog go

Always love to see the people

Always love to hear the crowd

Always love to bring a party

Turn it up and play it loud

Somewhere inside me

There's a new direction Somewhere before me

There's an open road

Can't go to sleep

Without that diesel singin'

Somebody tellin' me

It's time to go

Let's ride

Come on boys, let's ride

Let's ride like the wind

I'll be back again

As sure as this world's spins around

One day I might find a reason

To shut this thing down

But for now

Let's ride

Somewhere inside me

There's a new direction

Somewhere before me

There's an open road Can't go to sleep

Without that diesel singin'

Somebody tellin' me

Tell me, it's time to go Let's ride Come on boys, let's ride Come on boys, let's ride Yeah Let's ride
