

# Tracie Spencer, It'S All About You (Not About Me)

(feat. The Roots)

[Tracie (Black Thought):]

(Uh, uh, uh, uh, say what, uh, what, what, what, yeah)

Hmmm, oh yeah,

(Uh, what, yeah, come on, yo it's not about me, it's about you girl)

Yeah

(It's all about)

[Tracie:]

When we first met

You stole my heart away

Your love was incredible

Then you began to change

Made me feel special

Now all you do is make me cry

Gave you my everything baby

All you gave me was lies

[1: Tracie]

I, I try to be the one for you, boo

Matter nothing what I do

So I'm leaving

It's all about you

And not about me

[1]

[Tracie:]

When we get in a fight

I'm be the first to apologize

Even if it was you who did wrong

Can't please you, can't go on

No matter what I do for you

It's never any good for you

Why you got to complain, it's insane

I can't stay

[1: x2]

[Black Thought]:

Oh I see you got the Samsonite set out

For what to jet out?

What you can't take it no more

So you got to get out

Your back broke from that last straw

Oh you on the next plane out

Head games making it hard to maintain

Got a hypocritical love doing the same thing

Situation Kool and the Gang

To bursting in flames

And how relationships change

Worse than the pain for really

Your attitude kill me

Look at you in the doorway

Trying to ice grill me

Your heavy heart hurting

From trying to not feel me

Come in girl and put your suitcase down

We'll work it out as soon as I'm back from out of town

For now just stick around

I'll reach out from the airport

Soon as I hit the ground

Let's try to stay afloat in this sand

And not drown love  
I know the time, I hear you calling out for real  
You got to realize US is what is's all about

[1: x6]

I, I, do, do...
