

Tracy Bonham, One Hit Wonder

They call you the one hit wonder
If I could just hit you right
Yeah, right between
Yeah, right between your eyes
If ever a girlie wonder
Could ever be more than just
One thing, yeah more
Than one thing at a time
Huh, time
More than one at a time
I give you my four leaf clover
'Cause God only knows that is
The only one
The only one of mine
And you'll hear it over and over
Until it is built right in
Yeah, right into
Your filthy little mind
Your mind
Yeah, right into your
I own the world
I bought the whole damn world
From the man who sold the world
A million dollar caddy world
So could you just bend right over?
To see how it feels to be
To see just how it feels
To be alive
And you'll get it over and over
'Cause God only knows
That is the only one
The only one of mine
Of mine
The only one of
I own the world
I bought the whole damn world
From the man who sold the world
A million dollar cranky world
