

Tracy Byrd, Gettin' Me Over Mountains

It's an everyday battle
Just tryin' to break even
No, there ain't no gettin' ahead
When you're just gettin' by
But she's standing on the front porch
When I get home in the evening
That's how I know everything's gonna be all right.

I've crossed rivers with her kisses
Come through hard times with her soft touch
I don't know how but she makes it look easy
Getting me over mountains with her love.

There are days I wanna give up
Declare the world a winner
When the bills and the dog gone boss
Won't cut me no slack
But when we're turnin' these lights down
And I'm lyin' there with her
There ain't a rock on the road of life
I can't get past.

I've crossed rivers with her kisses
Come through hard times with her soft touch
I don't know how but she makes it look easy
Getting me over mountains with her love.

Getting me over mountains with her love ...
