

# Tracy Byrd, Right About Now

Right about now she's brushin' her hair  
Slippin' on her gown, wishin' I was there  
She just hates these lonely nights when I'm gone  
Right about now she's turnin' back the sheets  
Asking God to watch over me  
She'd never dream what i'm thinkin' about right  
about now

Chorus:

Right about now temptation's knockin' on my door  
I'm one step away from doin' what I've never done  
before  
I can hear the Devil Whisper, "Go ahead, she'll  
never find out"  
But, if I did her wrong I could never feel right  
about now

Right about now she's reachin' for the phone  
She knows it's me calling home  
I can almost see the smile on her face  
Right about now if she only knew  
What a lonely man could do  
It would break her heart in two right about now

Repeat Chours
