

Tracy Byrd, Summertime Fever

(Marty Brown - Stan Webb)

Well, I went to the doctor to tell him the news
I got a feelin' from my head to my shoes
Nurse said sorry but the docs not in
He's got the fever too, its summer again.

Long necks, rednecks, barbecues
Somethings always going on
Spreading like a fire in the morning news
From your skin right down to your bones.

Yachts and johnboats, floatin' on the river
Everyone's catching that summertime fever.

Mini skirts and roman sandals
Women so hot they ought to have handles
Fireworks on the fourth of July
Baseball, hotdogs, applepie.

Take off your T-tops, off your T-bird
Cut off your blue jeans, peel off your shirts
Yachts and johnboats floatin' on the river
Everyone's catching that summertime fever.

--- Instrumental ---

Long necks, rednecks, barbecues
Somethings always going on
Spreading like a fire in the morning news
From your skin right down to your bones.

Suntan oil so you dont blister everybody's got that Summertime fever...
