

Tracy Chapman, Over In Love (International Bonus

Cold wind blows
Shivers loose
Hard rain
To my skin soaked
through

So over in love with you
I don't even care

Sky turns gray
Black and blue
Fall on me
I can't be moved

So over in love with you
I don't even care

Hot sun shines
And lays bare
Shadows cross cut
Heavy air

So over in love with you
I don't even care

the tide that washes in
and out
Reveals a heart
And face worn new

So over in love with you
I don't even care

I don't even care
I don't even care
I don't even care

I don't even care

I don't even care
