Tracy Chapman, Over In Love (International Boni

Cold wind blows Shivers loose Hard rain To my skin soaked through

So over in love with you I dont't even care

Sky turns gray Black and blue Fall on me I can't be moved

So over in love with you I dont't even care

Hot sun shines And lays bare Shadows cross cut Heavy air

So over in love with you I dont't even care

the tide that washes in and out Reveals a heart And face worn new

So over in love with you I dont't even care

I dont't even care I dont't even care I dont't even care

I dont't even care

I dont't even care
