

# Tracy Lawrence, Livin' In Black And White

This makin' a livin' is killing me I work like a dog in this hot factory  
Can't even afford a vacation when I've got the time  
But I've got road maps of Mexico brochures and pictures of places to go  
Dreaming in color livin' in black and white  
I can drink margaritas with sweet señoritas work on my tropical tan  
Dangle my feet in the crystal blue waters lay in the snow white sand  
Well I've never been down to Mexico but I'm gonna go there tonight  
I'm dreaming in color livin' in black and white  
[ guitar ]  
I'd like to buy a new Cadillac build me a house with a pool out back  
And eat at the country club every Saturday night  
But there ain't much pay in my ol' paycheck  
But I'll win the lotta one day I bet  
I'm dreaming in color livin' in black and white  
I can drink margaritas...  
Oh oh I'm dreaming in color livin' in black and white
