

# Trademark, Even When I Close My Eyes

Yesterday I held you  
Miles away I miss you  
And all the love that you gave to me  
Time goes by without you  
I still dream about you  
I won't give up, we are meant to be

I never thought you'd ever be the only one  
But there's something telling me that I was wrong

Even when I close my eyes  
I can still see your face  
Cause baby a love this strong  
Time can not erase  
Even when I close my eyes  
If you knew how much I care  
That baby you're always there  
Even when I close my eyes

On my lips I still taste  
Our last kiss and I pray  
There'll come a time to hold you once more  
Smile for me and let the whole world see  
That our love will never die  
It's worth fighting for

I never thought I'd ever have regrets  
But there's something about you I just can't forget

(Chorus)

I never knew with you I had it all  
Guess I couldn't see the writing that was on the wall  
Sometimes you have to go away just to find  
That what you're searching for is exactly what you left behind

(Chorus)
