

# Trail Of Tears, Mournful Pigeon

Infinite oblivion...  
beyond all words and thoughts  
Desires sent to sleep,  
to the dawn of knowledge comes

A dismal gleam in their frozen eyes,  
gathering of the beloved ones

Bleeding portraits on velvet walls  
Serene divinity passing on  
Hiding are the deceitful ones

They have no courage, they have no feelings  
Weakness and greed the most

Now my sighs have been answered,  
they have drained me of all life  
The passion of the tragedies,  
described beyond my loss

Feels like flying  
Far away, out of confusion  
till clearness...

I can see the tears, falling...  
from your eyes.  
Try to wipe them, try to wipe them away  
But they were frozen, they were frozen to your chin  
Can't control my feelings  
Feels like I'm blind and stuck out in the dark  
with no trees around me  
Don't know what's passing me by

Why now?  
It's time to say farewell  
Leaves fall from the dying tree again  
Emotions brought to life

By me

My dearest pigeon is mournful yet again.
