

Trance To The Sun, Thistle Lurid

Thistle.

Lurid.

Black lunged abortive mother.

One leg in a mermaid; head full of snow
and half drunk promises.

Her offspring,

Wayward domestic rats; impeding tourists

Overfed American rotten beef brain,

made independently wealthy

Building closets for the insane.

And terminally committable

And terminally committable

And terminally committable

rats! rats!

rats! rats!

We're a new generation

Of lurid sinner saints birthed from red hot cunts-of-flame

To torch the world

with madness and purity.

Of lurid sinner saints birthed from red hot cunts-of-flame

To torch the world

with madness and purity.

To torch the world
