Dream, child As childhood wants to do

Dream all this night will allow Dream, child Dream with an angel's view Out there safe in your clouds

Wait for me now I will be there for you No matter what Tomorrow may bring This I will vow I will be there

Dream, child Stars have been rumored to See dreams within newborn eyes And in their arms I believe

Wait for me now I will be there for you No matter what Tomorrow may bring This I will vow I will be there
