

Transister, Jawbreaker Soundtrack-- Flow

~I'm always swimming against the flow of the tide
Kissing the life into something that's already died

Chorus

I--ve been drowning forever-I--- let go
I-- dive into the river and flow

You said that you could hear bells in the traffic below
I could hear sirens and car engines fighting the snow

I--ve been drowning forever-I---let go
I--dive into the river and flow
