

# Transplants, Pay And Price

(Tim)

Go! Go!

Transplants won't forget it

Past debit is will to test it

Beat down, won't regret it

Only when I can, I can accept it

And I speak for the one's who've been kicked hard

Because I know what's it's like to be discard and uh

Pushed down and beaten hard and when the times are rough

I'm gonna go step hard

(Chorus)

Pay any price, pay any verdict

Transplants gonna take it on, that is for certain

(Rob)

See the devil smile, feed the devils child

Pray to Jesus but you've laid low for a while

All my trouble ways, in a constant maze

It's killafornia so that's why I'm in a constant haze

Some are born to ride, I seem to wonder why

These sons of bitches still alive and all my home boys die

I can change the past

I can take it back

One life to live, one chance to die, I gotta make it crack

(Chorus)

(Tim)

You might lose you might win

You might finish or just begin

She's stretching the facts so thin

That bitch is lying again

Intellectual vindication

Low minded sophistication

Imparity is my equation

You're gonna get my evaluation

(Chorus)
