

Trauma, Greed

Look around you, you've lost everything
What was important greed led you to this wretched life - fucking life!
Persons like you awaken only compassion
The difficulty lies in the fact that you're not worth even minute of attention
Greed - the sin of greed, greed human seen of greed,
The sin of greed, is not the sin, when evolution is based
On the endless run, for higher form of being
The greed of goods, always means trouble
In this morbid world "Humans have no pride only price"
