

Travie McCoy, Rough Water (ft. Jason Mraz)

He-yo never let go of me,
Hold tight, it's gonna get hard to breath
(Hold tight baby!)
No, I'll never never let you drown
Even if we're going down
He-yo never let go of me,
When I'm sinking
(Let's go!)

[Jason Mraz:]
Lose lip sync shifts
That's what someone told me
But it's goal to stay a flow as long as you hold me,
We've been through rough water
And in time it was tougher
But the fact I came back to remind you I love you
But if that's not enough
well, I warn up you
I can't keep promise touchstones
I'll never make you suffer,
and all I ask in return is some reciprocation
I'll be your oxygen, will you running out of patience
So take a deep breath, and hold it tight
My heart is your, is free to assure you
that you hold it tight
Don't be offended, I'm just cautious flight
I'll always be around to hold you down
And never underline

He-yo never let go of me,
Hold tight, it's gonna get hard to breath
(Hold tight baby!)
I'll never never let you drown
Even if we're going down
He-yo never let go of me
When I'm sinking

[Jason Mraz:]
This is my message in a bottle,
I hope that you'll receive it
If it washes up at your feet
Then open it and read it,
To whom you may concern is such a name He
It's destiny that we were both born in the
same year,
Three months apart, but on the same sphere
Starring at the sun and hating ??
This type of love we got, they'll never get it
I'll be the Leo DiCaprio, you the Kate Winslet
Sometimes I ignore, but I never take you for granted
I'll hold you til my lips turn blue,
Like Jack in Titanic
And if I lose my grip, you just promise me this
You'll keep my love in the locket always rockin' light

He-yo never let go of me,
Hold tight, it's gonna get hard to breath
(Hold tight baby!)
I'll never never let you drown
Even if we're going down
He-yo never let go of me
When I'm sinking

Were times when I find it hard to hold on to someone

I was never meant to be held on to
I'll let it go, because that was meant to be
If not, just let it be!

He-yo never let go of me,
Hold tight, it's gonna get hard to breath
(Hold tight baby!)
I'll never never let you drown
Even if we're going down
He-yo never let go of me
When I'm sinking
