

Travis, Me Beside You

Dearest darling, look at me
Stuck (a)way up on an old oak tree
Looking down and as far as I can see... (a nice deep breath taken)
Dearest darling, look inside
Come with me and we'll walk for a while
And I'll define with you beside
Me beside you beside no one else will do besides

Dearest darling when we wake up
Don't be cold and turn away, love
Cos there's nowhere that I'd rather be
Me beside you beside no where else I'd be besides

Dearest darling time will tell us
If we'll fill up our empty wells
But until then we're by ourselves
Me beside you beside no one else will do
Beside me beside you besides no one else will do
