

Travis Randy, I Did My Part

I tried my best
I gave my heart
I took no rest
Time will tell
If I left my mark
But I'll know full well
I did my part
When I look down that road
What Do I see
My children's children looking
Right back at me
When they look back at me (and I'm)
Long gone away
Will they think kindly of me
When they hear me say
I did my part
I tried my best
I gave my heart
I took no rest
Time will tell
If I left my mark
But I'll know full well
I did my part
When I look down that hall
What do I see
A little baby crawling
Right back at me
I cannot walk for him
I cannot run
But I can hold his hand
And show him how it's done
I did my part
I tried my best
I gave my heart
I took no rest
Time will tell
If I left my mark
But I'll know full well
I did my part
Build a family
Build a city
Build a country
Build a world
Time will tell
If I left my mark
But I'll know full well
I did my part
But I'll know full well
I did my part
