

# Travis Scott, Steady With The Crew

My Lambo gon' skrrt, my crib ain't got served  
I got shit to lose, that shit make me nervous  
I got shit to lose, gotta keep my cool  
Gotta watch the dupes, can't let them come through  
I got shit to lose  
Hold up wait, more to gain, more at stake  
I got shit to do  
Had to move, with the crew, away from you

Steady with the crew, steady with the crew  
And you never liked it, and you never liked them  
Steady with the crew, steady with the crew  
And you never liked it, and you never liked them

My Lambo gon' skrrt, my crib ain't got served  
I got shit to lose, that shit make me nervous  
I got shit to lose, gotta keep my cool  
Gotta watch the dupes, can't let them come through  
I got shit to lose  
Hold up wait, more to gain, more at stake  
I got shit to do  
Had to move, with the crew, away from you

Steady with the crew, steady with the crew  
(Steady with the crew, steady with the crew)  
And you never liked it, and you never liked them  
(And I never liked it, and I never liked them)  
Steady with the crew, steady with the crew  
(Steady with the crew, steady with the crew)  
And you never liked it, and you never liked them  
(And I never liked it, and I never liked them)

You know what, we grew on  
We go back like futons and coupons  
We too bad, we too wild, we too young  
Shake some, my niggas gon' shake some  
Fall through and break somethin'  
Broad day, and take somethin'  
Backwards, I've been livin' backwards  
On my mattress, orgies on my mattress  
Flashes, dreamin', havin' flashes  
Dashin', hopin' I don't crash it

My Lambo gon' skrrt, my crib ain't got served  
I got shit to lose, that shit make me nervous  
I got shit to lose, gotta keep my cool  
Gotta watch the dukes, can't let them come through  
I got shit to lose  
Hold up wait, more to gain, more at stake  
I got shit to do  
Had to move, with the crew, away from you

Steady with the crew, steady with the crew  
Steady with the crew, steady with the crew  
And you never liked it, and you never liked them  
And I never liked it, and I never liked them  
Steady with the crew, steady with the crew  
Steady with the crew, steady with the crew  
And you never liked it, and you never liked them  
And I never liked it, and I never liked them  
Steady with the crew, steady with the crew  
Steady with the crew, steady with the crew  
And you never liked it, and you never liked them  
And I never liked it, and I never liked them

Steady with the crew, steady with the crew  
Steady with the crew, steady with the crew  
And you never liked it, and you never liked them  
And I never liked it, and I never liked them
