

# Travis Tritt, If I Were You

WITH KENNY ROGERS  
WRITER VERLON THOMPSON, BILLY DEAN

You've got it made, you've got real love  
Something you don't find every day  
Someone to trust, someone to lean on  
Something I would hold on to, if I were you

You've got it made, you've got no one  
You don't have those stings to tie you down  
You come and go free as the wind blows  
And I wouldn't settle down too soon, if I were you

If I were you I'd be satisfied  
Oh, I'm sure the grass is greener on the other side  
If I were you, I'd stay by her side (I'd be running wild)  
I would never leave her  
That's what I would do  
If I were you

If I were you I'd be satisfied  
Oh, I'm sure the grass is greener on the other side  
If I were you would I rather be (would I rather be)  
Someone just like me  
I wouldn't change a single thing  
If I were you.
