

# Treaty Oak Revival, Have A Nice Day

She's got that look  
That I know too well  
Well the new hair  
Crocodile tears  
The same old show and tell  
It's a crowded room  
But there's safety in the numbers  
She don't know  
She's right where I want her  
So

Why don't you save me your problems  
I'll let you check the boxes  
On all the ones that apply to me  
And well there's two sides to everything  
And I'm so easy to blame  
I was blind to it but now I see  
That there's no point in getting angry  
So I'll fake a smile and wave  
I hope that swinging door  
Hits you on the way  
Thanks for your time girl  
Have a nice day

Well I can't begin to make up  
Time that's lost  
Regardless of who's fault it was  
In the end  
I don't even care if you  
Try to keep  
The promises you made to me  
I guess that depends on  
On if you wanna cause a scene  
Or we can make this a clean break  
Just tell me what do you say

Why don't you save me your problems  
'Cause I'll let you check the boxes  
On all the ones that apply to me  
And well there's two sides to everything  
And I'm so easy to blame  
I was blind to it but now I see  
That there's no point in getting angry  
So I'll fake a smile and wave  
I hope that swinging door  
Hits you on the way  
Thanks for your time girl  
Have a nice day  
Thanks for your time girl  
Have a nice day

I guess I cut shit off in the nick of time  
She's lookin at me like she lost her mind  
And she said  
There's no way  
And I said

Why don't you save me your problems  
'Cause I'll let you check the boxes  
On all the ones that apply to me  
And well there's two sides to everything  
And I'm so easy to blame  
I was blind to it but now I see  
That there's no point in getting angry

So I'll fake a smile and wave  
I hope that swinging door  
Hits you on the way  
Thanks for your time girl  
Have a nice day
