

Treaty Of Paris, Hello Nurse

Chorus

You could be my nurse
I'll be the patient
You're saving
Mouth to mouth repressitating

Call me crazy
But I'm just a classic case
It must be entertaining
To see my try and use both brains

There's so much to say
About the roles we play
And there's so much at stake
I want you in the worst way

Chorus

Mouth to mouth repressitating

You can call me crazy
But I like the way you taste
Can I call you baby
If I forget your name

There's so much to say
About the roles we play
And there's so much at stake baby
(And all the kids sing at one time)

Chorus (2x)

Mouth to mouth to mouth to mouth
To mouth to mouth repressitating

When all hits me
It might be the
Greatest thing
Since breathing
When all you speak
It might be the
Greatest thing
Since breathing
Since breathing
Since breathing
Since breathing

Chorus

I said
You could be my nurse
Mouth to mouth repressitating
Mouth to mouth to mouth to mouth

Chorus

I said
Chorus
Singing Mouth to mouth to mouth to mouth
To mouth to mouth repressitating
