

# Treaty Of Paris, Miles Away

So you've heard it all before  
I'm not sure  
But I think it's becoming more than I can take  
But I'm still trying to be brave about this

So you've been right here before  
Got your heart ripped out  
And thrown on the floor too many times  
Bet you don't even remember why

Chorus  
Even though you're miles away  
Even though you're miles away  
I think about you every day  
You're gone

So you've crashed and burned before  
Got back up and went on  
Like you did before it all went down  
You know you used to be so proud about this

So you say that you ignore it  
Every time that it rains  
You wish it poured enough to break  
The issues that you make

Chorus

And even though you're miles away  
Even though you're miles away  
I think about the good times  
Before we had to say goodbye  
Goodbye  
Goodbye

Every letter that you sent  
Every phone call that you make  
Means more than you'll ever know  
Means more than I could  
Have the words to say  
Have the words to say  
To say

Chorus

And even though you're miles away  
Even though you're miles away  
I think about the good times  
Before we had to say goodbye  
And even though you're miles away  
Even though you're miles away  
I think about those late nights  
And those long chats  
And all the good times  
Before we said goodbye  
Goodbye
