

# Treble Charger, Case In Fact

If the phone doesn't ring  
It's me  
I know things won't work out  
Don't believe  
There's a glass between something  
You saw before  
And the wrong impression left  
Leaves no more

Tell a lie  
Case in fact

I feel the same  
A lot can go on in my place  
I need to know  
Why in the end things turned out wrong  
I know

When the things you've done won't lie awake  
I think I'd be on the first mistake  
No one understands this badly  
I might as well  
You might guess the same yourself  
But it's so hard to tell

If you like,  
I'll be more exact

If you agree,  
We'll make a pact
