## Treble Charger, Stupid Thing To Say

I can't relate to you I don't know what you're thinking To illustrate my view Allow me just a drink In some hotel bar Where the world's not next to me

Please don't say a stupid thing to me I can't enjoy it now If you're so tired of you Maybe it's me

You look at me so plain It's hard to even notice It takes so long to explain You don't have to know this part Only on the words you really need

Please don't say a stupid thing to me I can't enjoy it now If you're so tired of you Maybe it's me

Please don't say a stupid thing to me I can't enjoy it now If you're so tired of you Maybe it's me

If I could speak so slowly
It's not as though you owed me that much more
It's not just what you wear
That's something altogether
I'll stay over there
When you figure out whether
This all makes some sense to you personally

Please don't say a stupid thing to me I can't enjoy it now If you're so tired of you Maybe it's me

Please don't say a stupid thing to me I can't enjoy it now If you're so tired of you Maybe it's me .......If you're so tired of you Maybe it's me
