

# Treble, Magic

It's in the air  
and it's growing all the time  
Right above you  
it feels like flying

It's moving all around  
from the left to the right  
from me to you

It's in the air  
and it's growing all the time  
Right above you  
it feels like flying

It's moving all around  
from the left to the right  
from me to you

Caught your eyes in the middle of a song  
and I realisy what was going on  
Then we smile, as I knew  
I was sure, as you were  
And then in front of me,  
you were feeling it too
