

# Tree63, You Only

Those who live up in the Heavens  
And those who live down in the deepest place on earth  
Will hear Your name  
Will know Your fame  
All creation will look up and know that

CHORUS:

You, Only You  
Can lead us to Your awesome majesty  
Where we, we will be worshipping You only  
It's You only

We have heard You in the fire  
And we have followed You across the ocean floor  
That's how it goes; The story grows  
Two thousand years and still You're speaking

(CHORUS)

You, Only You  
Can lead us to Your awesome majesty  
Where we, we will be worshipping You only  
It's You only

You only  
It's You only  
You only  
It's You only

BRIDGE:

You came to free them  
They condemned You  
They nailed You up and tried to tear Your glory down  
But to their shame Sunday came  
They realized that even death can't hold You

(CHORUS)

Only You  
Can lead us to Your awesome majesty  
Where we, we will be worshipping You only  
It's You only

You only  
It's You only  
You only  
It's You only  
It's You only, yeah
