

# Trembling Blue Stars, This Once Was An Island

A coastal road at night  
Leading to a Spanish Shipwreck  
A constellation of lights  
A flood of something so right  
So right  
Like stepping into a dream  
And is this place here when we leave?  
This once was an island  
This once was an island  
A pipeline under the ocean  
A painted angel's kisses  
The wind outside the window  
A desert under darkness  
Like stepping into a dream  
And is this place here when we leave?  
This once was an island  
This once was an island  
The Snowflakes, 1908  
The team looks to the camera  
The whistle of a train  
Like a warm embrace  
Shields her, makes her feel safe.  
Like stepping into a dream  
And is this place here when we leave?  
This once was an island  
This once was an island
