

Trentemoller, Try A Little (feat. Jennlee)

sit me down baby
tell me that you're crazy
cause i've lost my mind
enough times
for you
solitude is what you do
when you think it's over
walk in time
with the beat I gave you
love lies
under it all
under it all
under it all

try a little
work a little
be a little
but more for me

try a little
work a little
be a little
but more for me

as I reflect n the time
seems like I knew it
all then
why would I wonder why
why would I
why would I
solitude is what you do
when you think it's over
as I reflect in the time
love lies under it all
under it all

try a little
work a little
be a little
but more for me

try a little
work a little
be a little
but more for me

try a little harder
be a little bit more for me
be a little bit more for me
be a little bit
be a little bit
