

Trevor Rabin, Push

You wake me up, you want me to know
You take me to blue waters
You shake me down, you move the ground
You call me i'm inspired
Corruption lives with the leaders
Confounding hands, fulmination

All the dreams of truth they prevaricate
In the darkest night they'll eviscerate
Epic land decays, fulmination
Fallen lands delay, devaluation
Stand up tall, before you fall

Hey! Gotta liar
Yeah! Don't you feel a fool (would you take me down)
Hey! Gotta fire

You hold the sound, it's all around
You mesmerize my power
Epic land decays with our leaders
Broken plans explain
All the feelers
Stand up tall,
You gonna watch him now, when you gonna watch him now
Before you fall
When you gonna watch him now

Yeah! Gotta liar
Yeah! Don't you cry
I've got a flier...you know...
Will it stop, blast off! Blast off!
Will it stop, blast off! Blast off!
Blast off!

Who's gonna watch him now, when you gonna watch him now
When you gonna watch him now.
