

Trey Songz, The Only One

I'm the only one
To make your body
I'm the only one
To make your body
I'm the only one
I'm the only one
To make your body

I'm the only one
I'm the only one
I'm the only one
I'm the only one
To make your body come

I'm the only one
I'm the only one
I'm the only one
To make your body come
Make your, make your body

Should've never told me
Should've never told me that girl
Should've never told me
Cause I know you be coming back girl

Fingers is in your hair
Staring in your eyes
Kissing everywhere
Right down to your thighs
And I know what to do
You know what to do
To get you in a mood
Treat you like my favorite food
Wanna rock a boat
Let me take you for a cruise
Take me on a ride
When you ride
I drive, drive you crazy
I show you, you my favorite
You my baby
I go deep and I go deep
But then I'm deep
But then I sleep inside the bed's all wet, the bed's all wet
Ain't another nigga make you spread like that, can he, can he
You can pretend that he's me but he ain't gon' be, no
You can pretend that he's me but he ain't gon' be, no, no but he ain't gon' be

I'm the only one
I'm the only one
I'm the only one
To make your body come
Make your, make your body

Should've never told me
Should've never told me that girl
Should've never told me
Cause I know you be coming back girl

Drip drop drip drip
And the clock keep going like tick tock
While I lip lock your sweet spot
That clit spot muck muck
Tongue it down, slow and I tongue it down faster
Nasty, but to get a little nastier

This been a long time
Tell me you're still mine
Cause they don't do it like a do it
If you say a nigga did then you're lying
Break it down
Do it real slow, real slow
Tell me, tell me know
How it feel, how it feel
When it comes to making you ooh
I know what to do

I'm the only one
I'm the only one
I'm the only one
To make your body come
Make your, make your body

Should've never told me
Should've never told me that girl
Should've never told me
Cause I know you be coming back girl
