

# Tribes, How The Other Half Live

Twisted and bent out of shape  
We might need a change of direction  
It's all depending, I have it worked out  
My brothers are about for some action

Back against the wall  
Face like [?] to fall  
Ain't it strange how the other half live?  
Ain't it strange how the other half live?

Quit condescending, it's driving me mad  
Like you're looking for some kind of reaction  
No mediocrity with the circus in town  
Like you're waiting for the crowd to break open

Back against the wall  
Face like [?] to fall  
Ain't it strange how the other half live?  
Ain't it strange how the other half live?

Give it, give it, give it  
You gotta give it some time  
You gotta give it some time  
Before you try to give up

Give it, give it, give it  
You gotta give it some time  
You gotta give it some time  
Before you try to give up

Give it, give it, give it  
You gotta give it some time  
You gotta give it some time  
Before you try to give u?

Give it, give it, give it  
You gotta give it some time  
You gotta give it some time  
Before you try to give up
