

# Trick Pony, Love Be Still

(Ira Dean/Heidi Newfield/Keith Burns)

Lyin' here tonight with you here by my side  
God I wish that this could last forever  
But the plain and honest truth  
Is I can't get enough of you&quot;And I am not complete 'til we're together

Stay right here  
Just relax  
Lets get lost  
Just lay back  
And let it all slip away  
Slowly watch  
The night roll into day  
Let two hearts in love&quot;Go where they will  
Time may fly but love be still

These are busy times, things are movin' fast  
So hold me now and kiss me soft and tender  
Well I could not ask for more  
Just lock the world outside our door  
As our bodies become one and we surrender

Stay right here

Just relax  
Lets get lost  
Just lay back  
And let it all slip away  
Slowly watch  
The night roll into day  
Let two hearts in love&quot;Go where they will  
Time may fly but love be still

The clock up on the wall keeps tickin'  
And it always will  
But here with you we have the power  
To let our love be still

Stay right here  
Just relax  
Lets get lost  
Just lay back  
And let it all slip away  
Slowly watch  
The night roll into day  
Let two hearts in love&quot;Go where they will  
Time may fly but love be still
