

Trick Pony, Now Would Be The Time

Verse1:

Deep inside I know that you've been hurting
And your bitter words were brought on by the pain
We said its over, now Im not so certain
Well maybe if I knew you felt the same

Chorus:

Now would be the time
To wrap your arms around me
To look me in the eye
And get down to the truth
When my heart is on the line
You could just reach out n take it
If there ever was a chance to change my mind
Now would be the time

Verse 2:

The word out on the street is you still want me
Theres been a lot of talking going round
And right here at this moment
You could show me
We could save this love from going down

(Repeat Chorus 2x)

If there ever was a chance to change my mind
Now would be the time
