

# Triinu Kivilaan, Fallen

Your life is like a thunderstorm  
I saw your lightning flash  
Where is the girl I used to be  
Since the day you captured me  
You turned my whole world upside down  
That's just the way you are  
Noone makes me feel like you do  
All that I want is you

REFREN:

Fallen - I've fallen - just for you  
Getting deeper every day  
Fallen - I've fallen - just for you  
Tell me you feel the same  
You are always on my mind  
You are always on my mind - just you  
If I was looking through your eyes  
My reflection I would see  
Oh I would feel your beating heart  
Beating just for me  
You can let fire burn so strong  
That's just the way you are  
Noone makes me feel like you do  
You make me feel so good
