

Trina, Phone Sexx

(feat. Qwote)

[Trina: spoken]

Hi this is trina

And I'm standing 5'2 125 pounds 34, 26, 36

Beautiful lite grey eyes, long black curly hair that

Hangs down to the middle of my back and right now I'm home alone and

I'm looking to try something new so if your listening

Why don't you leave me a message

Ha ha ha ha

[Chorus: Qwote]

Take your hands and close your eyes and picture me

Touching your thighs do you feel your body next to me

I'm in your mind but physically it feels so real when we're on the phone

The way you talk and the moan I put your body to the test it's not

A fantasy but it's phone sex

[Trina:]

What's your description I told you mine I was feeling real horny

Called the party line dude sounded so good I ain't waste

No time I'm a take my clothes off and just go for mine

The way that he was talking and describing himself I picture

Reggie bush and I ain't seeing nothing else my eyes closed tight

On the living room couch one hand up my (uummm) putting fingers

In my mouth cheating on my man I'm getting my freak on long as it ain't real

I ain't doing nothing wrong just a dirty fantasy on the

Football field me layed in the grass wanna love how it feel

Pulling on my hair biting on my lips throwing it back thrusting my hips

Pouring champagne down and he taking sweet sips got me bout to climax he took me on a trip aah

[Chorus:]

Take your hands and close your eyes and picture me

Touching your thighs do you feel your body next to me

I'm in your mind but physically it feels so real when we're on the phone

The way you talk and the way you moan I put your body to the test it's not

A fantasy but it's phone sex

[Trina:]

The next day I called the party line again I was looking for that voice

That's when I bumped in a thug that sounded like trick to me

You should have heard that nasty fantasy

He made me see us in a school house

I was the last student left and was bout to walk out

He said bend over and show him a shot in my private school skirt

So aroused I got hard as a mistle I blew on his whistle playing back and forth

For this nigga I can't dismiss you he asked can I kiss then I got wet

This phone bone thing is getting better than sex don't need protection everythings

Safe I even let him spank me I came on his (aahhh) I know he was so amazed

To hear me come on the phone we wasn't playing no games

We was getting it on aahhh

[Qwote:]

Do you feel me baby sexing your body touching you softly

Making you want me go head close your eyes

Put your hands on your thighs let's fantasize

From the other end of the line do you feel me baby sexing your body

Touching you softly making you want me go head close your eyes

Put your hands on your thighs let's fantasize

From the other end of the line

Take your hands and close your eyes and picture me

Touching your thighs do you feel your body next to me

I'm in your mind but physically it feels so real when we're on the phone
The way you talk and the moan I put your body to the test it's not
A fantasy but it's phone sex
