

# Trip Lee, Lookin' For Love

"All youve been searchin and lookin in all the wrong places  
Search no more. Love is here."

Hey I had to write this song cause the masses are mistaken  
Theyve confused the word love with infatuation  
Its sad cause when we lackin love the wrong path is taken  
They missing out cause getting true love is past amazing  
Its more than a passing statement, a short lasting craving  
It aint refusing not to wait, it aint mad impatience  
Some been tryna find love in that guy or gal they dating  
And before long they hormones are fastly raging  
Yeah true love is a must, but that aint love, its lustin  
Love would never ask you to ungodly stuff  
Its honest plus, it ain't wrong and hard to trust  
Its everlasting and can't happen when the hearts corrupt  
Resting on false love you must realized youll plummet  
Cause real love is much more than butterflies in ya stomach  
Most of us are out of line 'cause really the bottom line  
Is we looking for love but aint sure what we tryna find

You tried the pleasures of this world but still theres something missing  
Cause when you close your eyes at night you can feel your heart still searching  
I know you tired of being let down so you look for love in all the wrong places  
So search no more cause its the life of Christ your souls been missing

We must learn that love is perfect, it never will fail  
Im ready to tell, its needed and forever prevails  
Its so glorious, Im sure we need some more its true  
The worlds confused and seems to have a distorted view  
Most think loves a sweet kiss, a nice statement in time  
But dont know that love is sacred, its patient and kind  
Its not filled with sinful jealousy, doesnt brag and boast  
Its priceless and cant be bought with a stack of dough  
Its so true. Its not rude. It doesnt seek its own  
Its selfless, Im telling this because we need to know  
Its not easily angered, keeps no record of wrongs  
It forgives, its a blessing and forever is strong  
It dont delight in evil but it likes the truth  
Its liberating never fading and its righteous too  
Id like for you to put love first in here  
It always protects, always trusts, hopes, and perseveres

You tried the pleasures of this world but still theres something missing  
Cause when you close your eyes at night you can feel your heart still searching  
I know you tired of being let down so you look for love in all the wrong places  
So search no more cause its the life of Christ your souls been missing

I cant stress enough the fact that love will never end  
Its eternal better than this other stuff so let it in  
Such an unusual experience beyond expression  
We need it, we gotta seek it, yeah love is a blessin  
Utter perfection, but something most guys will lack  
So the remaining real questions, Where you find it at?  
I know you wondering if you dont wanna die and miss love  
Seek Christ, cause the Bible says that GOD is Love  
For GOD so loved the world, HE would redeem you and me  
Yeah it was love that made HIM bleed and cling to a tree  
Thats the truth, so without the SON you losing  
HE shows love and for that theres no substitution  
We try to fill the void with things of all sorts  
But let us stop settling for things that fall short  
HE can be the lover of our souls turn now to Christ  
Lookin for love? Well true love is found in Christ

You tried the pleasures of this world but still theres something missing  
Cause when you close your eyes at night you can feel your heart still searching  
I know you tired of being let down so you lookin for love in all the wrong places  
So search no more, cause its the life of Christ your souls been missing

You tried the pleasures of this world but still theres something missing  
Cause when you close your eyes at night you can feel your heart still searching  
I know you tired of being let down so you lookin for love in all the wrong places  
So search no more, cause its the life of Christ your souls been missing
