

Trippie Redd, Left 4 Dead

I'm down on my knees
Prayin' that you'll not gonna leave me

I won't stop finally
Just to walk away

They say it's hard to fall in love (oh)
I just can't leave it how it was (oh)
This shit is tearing me apart (oh)
I'm getting weaker with every breath I take without you

When shit hit the fan, you left me for dead
I miss the tricks you used to do in my bed
You switched so quick I couldn't even comprehend
You showed me why I can't be fuckin round with love

I try so hard to fake a smile
It feels like clouds keep raining down
Shit ain't the same second time around

I won't stop you finally
I was good till you found me (I loved and I lost)

They say it's hard to fall in love (oh)
I just can't leave it how it was (oh)
This shit is tearing me apart (oh)
I'm getting weaker with every breathe I take without you

When shit hit the fan, you left me for dead
I miss the tricks you used to do in my bed
You switched so quick I couldn't even comprehend
You showed me why I can't be fuckin round with love
